PIPING AND BACKFILL EVALUATION

Gentlemen:

The enclosed information on the backfill and buried piping near the Plant Hatch intake structure is being submitted in accordance with the agreement reached in our meeting of July 16, 1980. If you have any questions concerning this material, please inquire.

During the subject meeting, representatives of NRC, Region II requested that the deep fill adjacent to the power block structures be evaluated. Documentation that demonstrates the adequacy of this material is available on-site for NRC inspector review.

Sincerely,

W. A. Widner
