

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION I  
631 PARK AVENUE  
KING OF PRUSSIA, PENNSYLVANIA 19406

ALLEGATION NO. RI-86-A-0038

21 JUL 1986

(Name Withheld)

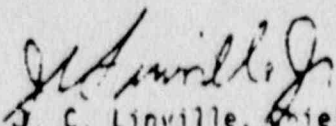

This office received an allegation that called into question your job performance at Nine Mile Point, Unit 2, due to possible involvement with controlled substances. Since our regulations do not explicitly cover this area, our policy is to turn allegations like this over to the licensee for investigation and disposition as we are obviously concerned about the fitness for duty of nuclear plant workers.

Consequently, we asked Niagara Mohawk to investigate this matter and inform us of their results. Because the Niagara Mohawk investigation was unable to establish any involvement by you in illegal use or distribution of controlled substances associated with your current employment at the Nine Mile Point Unit 2 facility, we consider this matter closed. Our file on this matter is enclosed for your information.

We are sorry for any inconvenience that this investigation has imposed on you, but we hope you understand our obligation to assure such matters are investigated and appropriately dispositioned to assure quality work at nuclear facilities and ultimately the health and safety of the public.

If you have any further questions on this matter please don't hesitate to contact me.

Sincerely,

  
J. C. Linville, Chief  
Reactor Projects Section 2C  
215-337-5122

Enclosure: As stated
