Mr. William F. Kane  
Deputy Director  
Division of Reactor Projects  
Nuclear Regulatory Commission  
631 Park Avenue  
King of Prussia, Pennsylvania 19406

Nine Mile Point Unit 2  
Docket No. 50-410

Dear Mr. Kane:

At your request, Niagara Mohawk Power Corporation has reviewed an allegation concerning a contractor employee at Nine Mile Point Unit 2. The allegation is contained in your letter of April 7, 1986.

As of March 31, 1986, the individual in question is no longer on the contractor's payroll at Nine Mile Point Unit 2. He did work as a Quality Control inspector since 1984.

Niagara Mohawk Security Department has conducted an in-depth investigation and cannot find any evidence to substantiate the allegations. The investigation will continue.

Further, the Quality Assurance Department reviewed the individual's work product. The individual performed no quality inspections during his tenure at Nine Mile Point Unit 2. He did, however, perform documentation reviews. The Quality Assurance review concluded that the individual's work was performed properly, in accordance with our quality standards.

Our files are available for your review.

Sincerely,

*C. V. Mangano*  
C. V. Mangano  
Senior Vice President
