Dear Mr. Kasun:

Enclosed please find three copies of UNC Naval Products revised Fundamental Nuclear Material Control Plan required by 10CFR74.51c1. This revised plan is in response to the questions and comments contained in NRC letter to me dated November 22, 1988. This revised plan is believed by UNC to be our final submittal to you in response to the MC&A Reform amendments and as such is Revision zero. Future changes resulting from data collection and plan implementation will begin a revision format from the enclosed Revision zero.

This plan contains Confidential Restricted Data and should be protected as such. This plan also is considered to contain information regarding our control and accounting procedures for safeguarding SNM and, as specified in 10 CFR 2.790d is not to be placed in the public document room.
