Gentlemen:

Subject: Inspection Nos. 50-317/89-20 & 50-318/89-22

A routine safety inspection of your annual emergency preparedness exercise was conducted by Mr. C. Gordon of this office and other members of an NRC team on September 13-15, 1989, at your Calvert Cliffs Nuclear Power Plant, Units 1 & 2, Lusby, Maryland. Discussions of our findings were held by Mr. Gordon with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection are described in the NRC Region I Inspection Report which is enclosed. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observation of the emergency exercise by team members.

Within the scope of this inspection, no violations were observed. Baltimore Gas and Electric Company's performance during the exercise demonstrated the ability to implement the Emergency Plan and the Emergency Plan Implementing Procedures in a manner that would provide adequate protective measures for the health and safety of the public.
