Delphos, OH 45833

License No. 34-20470-01

Dear Mr. Raifsnider:

This refers to a telephone contact conducted September 21, 1989. The contact was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license.

As a result of this examination of activities, two regulatory concerns were noted and are specified below. They may be evaluated at an onsite inspection at your facility in the near future.

- (1) The individual authorized on your license as the Radiation Safety Officer (Mr. Orville Rainwater) retired, and the RSO duties were assumed by Mr. Doug Lopshire without obtaining prior NRC approval and amending your license to reflect this change.
- (2) It appears that physical inventories of byproduct material in your possession have not been performed as required.

You should examine your license and NRC regulations to determine how you can correct these apparent regulatory concerns. Please submit to this office within 30 days of this letter, a description of actions taken or those that will be taken to correct the above mentioned regulatory concerns.

If you have any questions regarding this contact, you may contact us at 312-790-5500.

Sincerely,

Don Sreniawski, Chief
Nuclear Materials Safety
