Docket No. 50-312
Rancho Seco Nuclear Generating Station
License No. DPR-54
POWER REACTOR SAFEGUARDS CONTINGENCY PLANNING FOR SURFACE VEHICLE BOMBS

Attention: James G. Partlow

The following information is submitted under 10 CFR 50.54(f) as directed in Enclosure I of Nuclear Regulatory Commission Generic Letter 89-07, dated April 28, 1989.

This is to affirm that Amendment 16, Event 1A, "Land Vehicle Bombs," has been included as an addition to the Security Contingency Plan contained in Chapter 11 of the Rancho Seco Physical Security Plan. The planning included in Event 1A includes short-term actions that involve security personnel, Control Room Operators, and coordination for additional support from District Headquarters.

The effects of this change have been considered as required in 10 CFR 50.54(p)(1). The addition of this event to the Rancho Seco Contingency Plan enhances rather than decreases security at Rancho Seco.

Members of your staff with questions requiring additional information or clarification may contact Rita Bowser at (209) 333-2935, extension 4522.

Sincerely,

Dan R. Keuter
Assistant General Manager
Nuclear
