Dear Sir/Madam

I am a student at
the Susquehanna School in
Binghamton and my class is
studying radioactive waste,
and we are very concerned about
the State's planning of a low-
level radioactive waste site.

We are interested in getting
any information you have,
along with any maps showing
where the potential sites are
and also any showing underground
water systems.

Thank you very much for
your time and effort. please
send this information to
Laurel Kritkauskay at the
address below.

Sincerely yours,
Laurel Kritkauskay
