Mr. A. E. Scherer, Director  
Nuclear Licensing  
Combustion Engineering, Inc.  
1000 Prospect Hill Road  
Windsor, CT 06095-0500

Dear Mr. Scherer:

By letters dated November 22, December 19, 1988, April 20 and October 4, 1989, you submitted changes to your approved physical security plan, entitled "Physical Security Plan for the Protection of Special Nuclear Material of Low Strategic Significance Used Within Buildings 5/17/21." A review of these changes has found that your plan continues to meet the requirements of 10 CFR 73.67(f) and (g) and they are acceptable.

In addition to the above referenced letters, on July 31 and August 7, 1989 changes to your currently approved material control and accounting Fundamental Nuclear Material Control (FNMC) Plan were also submitted. A review of these changes has found that they are also acceptable.

In accordance with our decision that the changes to both your Physical Security and FNMC Plans are acceptable in that the changes will not adversely affect the common defense and security nor the public health and safety and are otherwise in the public interest, we are hereby revising, effective upon receipt of this letter, License Conditions 1.1 and 2.1 to the current Safeguards Amendment to your License No. SNM-1067. To accommodate both the physical security and material control and accounting plan changes, we are hereby issuing the enclosed new Safeguards Amendment SG-3 which replaces your SG-2 in its entirety.

We have determined that the attachments to the aforementioned letters contain information of the type specified in 10 CFR 2.790(d). Accordingly, pursuant to Section 2.790(d)(1), such information is deemed to be commercial or
