This modification is issued to revise Section C, Description/Specifications/Work Statement, Subsection C.1.8, Vehicle Specifications, to delete the requirement for a telescoping antenna and mast. As consideration for NRC's elimination of this requirement, the Government hereby accepts Diversified Mobile Products, Inc.'s offer, dated October 4, 1989 and incorporated herein by reference, to reduce the firm fixed price of the contract by \$351.00, from \$59,612.00 to \$59,261.00. In addition, as stated in the contractor's offer, Diversified Mobile Products, Inc. shall alter the electrical wiring in order to separate the wall circuits being fed from the SOLA line conditioner. The passenger side wall circuit shall be supplied from the SOLA and the driver's side circuit shall be fed directly from the circuit box and be protected by its own 20 amp circuit breaker. This work shall be performed at no additional cost to NRC. Within 10 days following final acceptance of the vehicle, Diversified Mobile Products, Inc. shall provide to NRC, at no cost, an "as-built" electrical wiring diagram of the vehicle.

Accordingly, the contract is hereby modified as follows:

1. SF 26, Block 14, Accounting and Appropriation Data, is revised to deobligate excess funds of \$351.00, thereby reducing the amount obligated by the Government under this contract from \$59,612.00 to \$59,261.00.
2. Section B, Supplies or Services and Prices/Costs, Subsection B.2, Consideration and Obligation--Firm Fixed Price, is revised to read as follows:  
  
"B.2 The firm fixed price of this contract is \$59,261.00."
3. Section C, Description/Specifications/Work Statement, Subsection C.1.8, Vehicle Specifications, is revised to delete the requirement "Telescoping Antenna."
4. Section C, Description/Specifications/Work Statement, Subsection C.1.9, Construction Specifications, Subsection, "Power Strips/Outlets," is revised to add the following:  
  
"The contractor shall alter the wiring in order to separate the wall circuits being fed from the SOLA line conditioner. The passenger side wall circuit shall be supplied from the SOLA and the driver's side circuit shall be fed directly from the circuit box and be protected by its own 20 amp circuit breaker. The contractor shall provide to NRC an 'as-built' electrical wiring drawing on or before the expiration date of the contract, October 25, 1989."

All other terms and conditions of this contract remain unchanged.
