Philadelphia Electric Company
ATTN: Mr. C. A. McNeill, Jr.
Executive Vice President-Nuclear
Correspondence Control Desk
P.O. Box 7520
Philadelphia, Pennsylvania 19101

Gentlemen:

Subject: Inspection No. 50-352/89-18 and 50-353/89-26

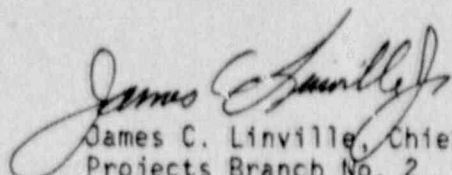

This letter transmits the routine resident safety inspection by Messrs. J. Kenny, L. Scholl, R. Fuhrmeister and Ms. M. Evans from July 31-September 11, 1989 at the Limerick Generating Station, Limerick, Pennsylvania. The inspection consisted of document reviews, interviews, and observations of activities. The results have been discussed with Mr. Graham Leitch and Mr. Martin McCormick, Jr. of your staff.

Within the scope of this inspection, no violations were identified. However, we are concerned about the failure to follow a procedure which led to three workers being overcome with heat exhaustion during the performance of control rod drive cleaning. There have been two other similar incidents involving heat exhaustion during approximately the last two years and it appears this area requires increased management attention.

In accordance with 10 CFR 2.79(a), a copy of this letter and the enclosures will be placed in the Public Document Room.

Your cooperation with us is appreciated.

Sincerely,

James C. Linville, Chief
Projects Branch No. 2
Division of Reactor Projects
