

November 6, 1989

Docket No. 50-293

Mr. Ralph G. Bird
Senior Vice President - Nuclear
Boston Edison Company
Pilgrim Nuclear Power Station
RFD#1, Rocky Hill Road
Plymouth, Massachusetts 02360

Dear Mr. Bird:

SUBJECT: DETAILED CONTROL ROOM DESIGN REVIEW SUPPLEMENTAL SUMMARY REPORT
AND PROGRAM PLAN, REVISION 2

REFERENCE: TAC Number 59329

By letters dated May 5 and July 24, 1989, you provided a Detailed Control Room Design Review (DCRDR), Supplementary Summary Report (April 1989) and the DCRDR Program Plan, Revision 2 (July 1989), respectively. The staff, with contract assistance from Science Applications International Corporation (SAIC), has reviewed the Program Plan and Supplementary Summary Report, with details of each review contained in contractor technical evaluation reports (TERs). The staff agrees with the results and conclusions presented in the TERs which are enclosed for your information.

In a further effort to ensure mutual understanding of the requirements for a successful DCRDR, a conference call was held with members of your staff. Comments on your revised Program Plan were provided and are reflected in the enclosed TERs. The DCRDR should be successful if the methodology described in the revised Program Plan is followed; the commitments in the Supplementary Summary Report are met; and the items identified in the enclosed TERs, including the April 26, 1989 in-progress audit report, are addressed.

You have indicated that the Final DCRDR Summary Report will be provided by November 30, 1990.

Sincerely,

Original signed by:

Daniel G. McDonald, Senior Project Manager
Project Directorate I-3
Division of Reactor Projects I/II
