Dear Ms. Garde:

SUBJECT: REQUEST FOR ENFORCEMENT ACTIONS

This letter is in response to your letters of September 23, 1989, concerning (1) the service water system enforcement action (EA 88-310), and (2) the auxiliary feedwater system check valves (SDAR CP-89-015). Those letters presented the position of the Citizens Association for Sound Energy (CASE) relative to the need for enforcement actions on these matters.

As I discussed with you and Juanita Ellis, CASE's president, on October 4, 1989, I understand that, although both letters requested that the NRC consider escalated enforcement actions on these issues, CASE does not want the staff to treat these letters as petitions pursuant to 10 CFR 2.206. Accordingly, we will consider the information you have provided in the course of any future action we may take on these issues.

In the future, any requests for enforcement action you may submit to the NRC should clearly state whether CASE wishes them considered as petitions pursuant to 10 CFR 2.206. *to be*

Should you have any questions regarding this matter, please do not hesitate to contact me.

Sincerely,
(original signed by)
