

NOV 03 1989

Docket No. 50-461

Illinois Power Company  
ATTN: Mr. D. P. Hall  
Senior Vice President  
Clinton Power Station  
Mail Code V-275  
P. O. Box 678  
Clinton, IL 61727

Gentlemen:

The U.S. Nuclear Regulatory Commission recently received allegations concerning possible falsification of radiation protection data sheets and employee discrimination because of concerns raised regarding the falsification of those records. The same allegations were made to the Clinton, Quality Assurance Manager who hired a private firm to investigate the allegations. At our request a copy of the investigation report was sent to this office. Based on a review of that report (Case No. 89A0807) and a review of the allegedly altered data sheet, we find the evidence does not support the allegations. We therefore, consider these allegations (RIII-89-A-0114) closed.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room.

Your cooperation with us is appreciated. We will gladly discuss any questions you may have concerning our review of your report.

Sincerely,

ORIGINAL SIGNED BY C. E. NORELIUS

Charles E. Norelius, Director  
Division of Radiation Safety  
and Safeguards
