Docket 50-334

November 4, 1982
ND1SLC:372

Mr. Peter Tam, Project Manager
U. S. Nuclear Regulatory Commission
Phillips Building
Washington, DC 20555
Mail Stop 438

Reference: Beaver Valley Power Station, Unit No. 1
Docket No. 50-334, License No. DPR-66
Additional Information - Turbine Building Dynamic
Settlement

Dear Mr. Tam:

Enclosed is the additional information on the impact of turbine building dynamic settlement which you requested on October 27, 1982. Isometric drawing set 6.24-59 refers to Feedwater line 16"-WFPD-7-901 and hangers in the Main Steam Valve Room. Isometric drawing set 6.24-2 refers to Main Steam line 32"-SHP-1-601 and hangers in the Main Steam Valve Room. Isometric drawing 6.24-69 refers to River Water line 30"-WR-151-Q3 from Safeguards to the connection into the Circulating Water System.

If you have any questions regarding this letter, do not hesitate to contact me.

K. D. Grada, Superintendent
Licensing and Compliance

BFS/drc
