Subject: Supplement to Application for Renewal to License No. SNM-21, Docket 70-25 issued to Rocketdyne Division of Rockwell International Corporation

- Reference:
1. RI Letter, R.T. Lancet to Leland C. Rouse "Application for Renewal of License No. SNM 21 Docket 75-20 issued to the Rocketdyne Division of Rockwell International Corporation, May 25, 1989.
 2. NRC Letter, Leland C. Rouse to Attn: Dr. M.E. Remley dated March 8, 1989

In the reference 1 letter we requested renewal of the subject license, as revised by Amendment 2 (reference 2).

This supplement requests that the following changes be made to reference 1 renewal request.

1. The use limit be reduced to less than 6g of Pu for research and development (R&D) activities.
2. The possession limit be reduced to 400 of special nuclear material (SNM) to cover the 6g of Pu for use in R&D activities and potentially up to 394g of SNM contamination distributed in the Rockwell International Hot Laboratory.
3. The term of the renewal request be reduced such that the license runs through October 30, 1990.
