Mr. John C. Brons  
Executive Vice President, Nuclear  
Generation  
Power Authority of the State of  
New York  
123 Main Street  
White Plains, New York 10601

Dear Mr. Brons:

SUBJECT: FITZPATRICK NUCLEAR POWER PLANT - GENERIC LETTER 83-28,  
ITEM 2.2 (PART 1), EQUIPMENT CLASSIFICATION PROGRAM FOR  
ALL SAFETY RELATED COMPONENTS (TAC NO. 53672)

Generic Letter 83-28, Item 2.2.1, required that the Power Authority of the State of New York (PASNY), licensee for the FitzPatrick Nuclear Power Plant, describe in considerable detail the program for classifying all safety-related components other than reactor trip system components as safety-related on plant documents and in information handling systems that are used to control plant activities that may affect these components.

PASNY responded to the requirements in submittals dated November 9, 1983, June 29, 1984, July 2, 1985, December 31, 1985, March 20, 1987, and October 16, 1989. The staff has evaluated those responses and finds them to be acceptable. Our Safety Evaluation and the Technical Evaluation Report by our contractor, EG&G Idaho, Inc., are enclosed for your information.

This completes Item 2.2.1 of Generic Letter 83-28 for the FitzPatrick Nuclear Power Plant and completes action on TAC No. 53672.

Sincerely,

Original signed by

David E. LaBarge, Project Manager  
Project Directorate I-1  
Division of Reactor Project - I/II  
Office of Nuclear Reactor Regulation
