

NOV 12 1976

MEMORANDUM FOR: K. R. Goller, Assistant Director for Operating Reactors, DOR
FROM: D. Eisenhut, Assistant Director for Operational Technology, DOR
SUBJECT: IMPLEMENTATION OF APPENDIX J TO THE OCONEE NUCLEAR STATION, UNIT NOS. 1, 2, AND 3; TAR ORB-1-191

Plant Name: Oconee Nuclear Station, Unit Nos. 1, 2, and 3
Docket Nos: 50-269, 270, 287
Responsible Branch: ORB-1
Project Manager: D. Neighbors
Status: Incomplete; will require additional information to justify certain requested exemptions to 10 CFR 50, Appendix J.

In response to your Technical Assistance Request ORB-1-191, dated October 3, 1975, the Plant Systems Branch has reviewed the submittal made by the licensee regarding proposed exemptions from the requirements of Appendix J to 10 CFR 50.

The enclosed evaluation was developed from an application of generic positions for the implementation of Appendix J to operating plants. Our determinations relative to acceptability of specific proposed exemptions and modifications are provided in the body of this evaluation.
