PREPARATION OF OCONEE DRAFT ENVIRONMENTAL STATEMENT

As you know, issuance of the Oconee Draft Environmental Statement was an important milestone for the Division of Radiological and Environmental Protection and for the regulatory staff. In this regard, I consider the effort expended by you in coordinating the preparation and issuance of this statement to be exemplary. I realize fully that being involved with this first statement had its share of frustrations and complexities, and I particularly wish to recognize the long hours you put in to get this statement issued in a timely manner.

The caliber of the report and the timeliness of its issuance reflect favorably on you and the Division. You deserve a sincere WELL DONE.

J. G. Keppler, Chief  
Projects Branch  
Division of Radiological and  
Environmental Protection
