MEMORANDUM FOR: V. Stello, Director, Division of Operating Reactors

THRU: D. G. Eisenhut, Assistant Director for Operational Technology, Division of Operating Reactors

FROM: W. R. Butler, Chief, Plant Systems Branch, Division of Operating Reactors

SUBJECT: OCONEE 1, 2, and 3 - DEDICATED SHUTDOWN SYSTEM

On March 7, 1978, representatives of DOR and DSS met to discuss the minimum fire protection system requirements when a dedicated shutdown system is proposed and the minimum shutdown system requirements when one division of all safety systems will not be available following a fire. Information concerning these issues was presented in the enclosed memorandum, dated February 24, 1978, on the same subject. (Enclosure 1)

The decisions reached at this meeting are shown on Enclosure 2.

A list of attendees is shown on Enclosure 3.

W. R. Butler, Chief
Plant Systems Branch
Division of Operating Reactors
