MEMORANDUM FOR: A. Schwencer, Chief, Operation Reactors Branch
No. 1, NRR

FROM: K. V. Seyfrit, Assistant Director
for Technical Programs, IE

SUBJECT: SEISMICITY NEAR OCONEE NUCLEAR GENERATING STATION
UNITS NO. 1, 2, AND 3

As discussed in our recent telephone conversation, Region II inspectors have reviewed the seismic monitoring instrumentation operability and surveillance at the Oconee Nuclear Generating Station. Their summarized findings are contained in Enclosure 1 to this memorandum. Enclosure 2 is the memo from Carl Stepp to you which led to your request. Enclosure 3 is a draft memo from Duke Power Company to E. G. Case, wherein it is indicated that a report containing the licensee's analyses of the microseismic events will be submitted in March, 1978.

I trust this information will be adequate for your needs.

Karl V. Seyfrit, Assistant Director
for Technical Programs
Division of Reactor Operations Inspection
