Division of Material and Fuel  
Cycle Facility Licensing

OCCURRENCE AT OCONEE NUCLEAR STATION

In response to your subject memo dated July 11, 1975, our Region II Office has provided us with a clarifying memo relative to the use of film badges by contractor personnel. A copy is enclosed.

In summary, Duke Power Company has informed our inspector that it is not DPC policy to preclude the wearing by contractor personnel of their own personnel monitoring devices and we are informed that steps have been taken to avoid any misunderstanding in this regard.
