REVIEW OF OCOONEE RADIOACTIVE MATERIALS SAFETY

Please reference our "Technical Assistance Request for Review of Radioactive Materials Safety" dated January 24, 1974. By letter dated March 7, 1974, Duke Power Company responded to our request of February 8, 1974 to provide information concerning special nuclear materials and byproduct materials at the Oconee Nuclear Station.

Oconee Unit 3 is scheduled to load fuel in early July 1974 and we intend to approve revised Technical Specifications by the end of April 1974. Therefore, we would appreciate your evaluation of Radioactive Material Safety at this station by April 22, 1974.
