PRELIMINARY INFORMATION ON STREAM-LINE-FEEDWATER-LINE BREAK FOR  
OCONEE UNIT 1, 2 and 3

In response to our December 15, 1972 letter to Duke Power Company on the subject matter, Duke has provided the enclosed preliminary information for our review. Since Oconee 1 will be ready for fuel loading in late January 1973 (notwithstanding the plant modifications suggested in the enclosure) our expeditious review of this preliminary information is warranted.
