MAY 9 1972

Note to File

TELECON WITH JOHN ELLIOT, DUKE POWER COMPANY ON MAY 8, 1972

Elliot called for an interpretation of our question 12.10 in the recent question list for Oconee 2 & 3 review.

I told him that the reference in the question should have been to section 12A-6 instead of page 12A-6. Duke listed the number of professional people in its engineering department but did not break it down into nuclear trained people. We are requesting that this be done.
