

Docket No.: 50-346

DEC 8 1975

Toledo Edison Company
ATTN: Mr. Lowell E. Roe
Vice President, Facilities
Development
Edison Plaza
300 Madison Avenue
Toledo, Ohio 43652

Gentlemen:

We request that you provide a table of the inertia terms (L/A) ft⁻¹ for each junction and the volume height (ft) for each volume used in the reactor cavity, the steam generator compartment, and the pressurizer compartment analyses. We need this table to complete our review of Davis-Besse, Unit 1.

We will need your response to the above request by December 22, 1975. If you cannot meet this response date, please inform us within seven days after receipt of this letter so that we may revise our scheduling.

Please contact us if you have any questions about these matters.

Sincerely,

A. Schwencer, Chief
Light Water Reactors Branch 2-3
Division of Reactor Licensing
