

Docket File DEC 11 1972

Docket No. 50-346

Richard C. DeYoung, Assistant Director for Pressurized Water Reactors, L  
DAVIS-BESSE, NUCLEAR POWER STATION, UNIT NO. 1 - ACCEPTANCE REVIEW

Plant Name: Davis-Besse Nuclear Power Station, Unit No. 1  
Licensing Stage: CP  
Docket Number: 50-346  
Responsible Branch: Pressurized Water Reactors Branch No. 4  
Project Manager: I. Peltier  
Requested Completion Date: January 3, 1973  
Description of Response: Acceptance Review  
Review Status: Complete

We have reviewed Section 11.0, Radioactive Waste Management, and related information in other sections. The information provided conforms with that requested in the standard format for safety analysis reports. While the report appears to be adequately complete, we may request specific additional information as a result of our detailed review.
