DOCKET NO. 50-346 DAVIS-BESSE NUCLEAR POWER STATION

On January 27, 1972 Mr. Gerald Charnoff wrote a letter to Mr. Muntzing (Correspondence Control No. 517) requesting that the AEC make a determination that a certification pursuant to Section 21(b) of the Federal Water Pollution Control Act is not required for the Davis-Besse Nuclear Power Station.

Apparently the applicant feels he should have a legal determination by AEC prior to March 24, 1972. It is requested that you take the necessary action on this matter.
