SER FOR DAVIS BESSE UNITS 2 AND 3

Recent Revision Number 8 dated June 18, 1976, of the SAR for Davis Besse Units 2 and 3 has deleted some design information and has stated in its place that Units 2 and 3 will be duplicate of Unit 1. Since this approach is not permissible under standardization policy, the A/D for Plant Systems will be in touch with DPM on this matter. Until this matter is resolved, the EICSB (possibly other branches) cannot agree to a firm date for an SER input for Davis Besse Units 2 and 3.
