Mr. A. Giambusso
Deputy Director of Reactor Projects
Directorate of Licensing
United States Atomic Energy Commission
Washington, D. C. 20545

Subject: Docket No. 50-346

Dear Mr. Giambusso:

Your letter of January 18, 1973, informed us of the results of your preliminary review of our tendered application for an operating license for the Davis-Besse Nuclear Power Station, including a listing of deficiencies in the FSAR.

In response to your letter, we are enclosing revised pages of the FSAR which contain further information concerning items identified by an asterisk in the enclosure to your letter as information that is required prior to acceptance of our application. This material is identified by the covering index sheet.

We hope that this information is fully responsive to your request and provides all information necessary for full acceptance of the FSAR and operating license application.

Yours very truly,

A handwritten signature in cursive script that reads 'Glenn J. Sampson'.
