Operations Inspection, IE

SUBJECT: TOLEDO EDISON - DAVIS BESSE UNIT NO. 1 (DN 50-346)

Region III has informed us that based on their inspection efforts, they have determined that items F.1, F.2 and F.4 in Attachment 2 to license NPF3 have been completed.

Based on an understanding reached with the licensee during a meeting August 25, 1977, we consider Item F.3 resolved subject to the licensee committing to perform the tests to be described by NRR.

IE sees no impediment for the licensee to proceed to Mode 1 (Power Operation).
