Mr. Edward J. Bauser
 Executive Director
 Joint Committee on Atomic Energy
 Congress of the United States

RDeYoung
 DMuller

Dear Mr. Bauser:

The Commission is forwarding to the Office of the Federal Register for publication Notices of Hearing on the following plants:

Pacific Gas and Electric Company
 (Diablo Canyon Nuclear Power Plant Unit 2)

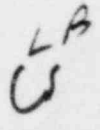

The Toledo Edison Company and
 The Cleveland Electric Illuminating Company
 (Davis-Besse Nuclear Power Station)

Portland General Electric Company, et al
 (Trojan Nuclear Plant)

Virginia Electric and Power Company
 (North Anna Power Station Units 1 and 2)

Because construction permits were issued for these facilities during the period January 1, 1970 to September 9, 1971, they are subject to the requirements of Section B, Appendix D to 10 CFR Part 50, which provides for a mandatory environmental hearing as to whether the construction permits should be continued, modified, terminated or appropriately conditioned. The utilities involved have not yet filed an application for an operating license, but we are currently conducting on an accelerated schedule environmental reviews of these proposed facilities.

The Draft Environmental Statements have been or will be issued within the next few weeks and will be available prior to the hearings in these proceedings.
