Re: The Toledo Edison Company and The Cleveland
Electric Illuminating Company (Davis-Besse
Nuclear Power Station, Unit 1), The Cleveland
Electric Illuminating Company, et al.
(Perry Nuclear Power Plant, Units 1 and 2)
Docket Nos. 50-346A, 50-440A & 50-441A

Gentlemen:

With respect to the prehearing conference scheduled for April 21, 1975,
the NRC Staff requests that the following three items be added to the
agenda:

- a) Resetting the "Perry Hearing Schedule" now being held in
abeyance.
- b) Consideration of whether the proposed testimony not of
outside experts must also be filed in advance in writing.
- c) Consideration of whether witnesses during presentation
of the case-in-chief can testify as to remedy (Staff believes
a bifurcated hearing would be unduly costly and time-
consuming).
