Lt. Colonel Myron D. Snoke, Director  
U. S. Army Coastal Engineering  
Research Center  
5201 Little Falls Road, N. W.  
Washington, D. C. 20016

Dear Colonel Snoke:

In accordance with the arrangements for assisting us in evaluating water surge and wave runup aspects for reactor projects located in certain areas, we would appreciate receiving comments from an appropriate member of your staff on the information presented in the enclosed Volumes 1, 2 and 3 of the Preliminary Safety Analysis Report filed by The Toledo Edison Company and The Cleveland Electric Illuminating Company for their proposed Davis-Besse Nuclear Power Station.

The proposed facility is to be located on the applicants' approximately 900-acre site on the southwest shore of Lake Erie, about twenty-one miles east of Toledo, in Ottawa County, Ohio.

Your prompt review and comments will be appreciated.

Sincerely yours,

Original signed by:  
Roger S. Boyd

Roger S. Boyd, Assistant Director  
for Reactor Projects  
Division of Reactor Licensing
