Bowling Green State University  
Bowling Green, Ohio 43403

Dear Ms. Oakes:

Thank you for your inquiry of October 4, 1978, regarding the Davis-Besse Nuclear Power Station sited in Oak Harbor, Ohio. To assist you in the preparation of your paper, I am sending you copies of the following: the Nuclear Regulatory Commission's Safety Evaluation Report NUREG-0136 (12/76) for the operating license for unit number one; NUREG-0136 (4/77) Supplement to the Unit One Safety Evaluation Report; and NUREG-0421 (7/78), the Safety Evaluation Report for Units 2 and 3.

In response to your specific questions on siting, safety measures to prevent waste leakage and waste products, and employee safety, please refer to NUREG-0421, Sections 2.0, 11.0, and 12.0, respectively. These sections should give you a good summary of information needed for your paper.

If you have need for further assistance, do not hesitate to write. Good luck on your paper!

Sincerely,

Original signed by,  
Roger J. Mattson

Roger J. Mattson, Director  
Division of Systems Safety  
Office of Nuclear Reactor Regulation
