License No. DPR-53
Inspection No. 75-17
Docket No. 50-317

Gentlemen:

This refers to the inspection conducted by Mr. R. J. Meyer of this office on July 1-2, 1975 at Calvert Cliffs 1 of activities authorized by NRC License No. DPR-53 and to the discussions of our findings held by Mr. Meyer with Mr. Douglass and Mr. Tiernan of your staff at the conclusion of the inspection.

The area examined during this inspection was limited to a review of the circumstances relating to the unplanned release of radioactive gases on July 1, 1975. Within this area, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Within the scope of this inspection, no items of noncompliance were observed.

With respect to the air balance problems identified by our inspector and as discussed with Mr. Douglass at the conclusion of the inspection on July 2, 1975, it is our understanding that a program to evaluate and correct these problems will be conducted. It is further understood that this program is tentatively scheduled to be completed by August 1, 1975.

In accordance with Section 2.790 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons on the basis of which it is claimed that the information is proprietary, and should be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this

regard within the specified period the report will be placed in the
Public Document Room.

No reply to this letter is required; however, should you have any
questions concerning this inspection, we will be pleased to discuss
them with you.

Sincerely,

Paul R. Nelson, Chief
Radiological and Environmental
Protection Branch
