Note to B. H. Grier

ACCOMPANIMENT BY W. J. DIRCKS ON INSPECTION AT DAVIS-BESSE

Please note the attached of above subject dated November 7, to me from the Director, Region III. I find Item 3 to be of particular interest in the accompanying memorandum as expression of the concern of Mr. Dircks. It would appear that this concern was generated by discussion in the "Huberman" study.

This is for your information.
