THRU: D. W. Hayes, Senior Reactor Inspector, Projects Section

DAVIS-BESSE UNIT 1
SITE INSPECTION OCTOBER 29 AND 30, 1975

J. W. Sutton and I. T. Yin conducted a scheduled, announced inspection of construction activities on October 29 and 30, 1975.

Mr. W. J. Dircks, Assistant Executive Director for Operations, Headquarters, accompanied the inspectors.

A summary of Mr. Dircks' activities and expressed interests during the inspection are identified below:

1. Mr. Dircks was given the following documents for his personal use:
 - a. Current inspection plan, dated October 22, 1975.
 - b. Report of the last Davis-Besse inspection (Report No. 050-346/75-18).
 - c. Summary of Licensing's October 15 and 16, 1975, site electrical technical review findings.
 - d. Brief description of the plant, license status, and major issues.
2. Mr. Dircks also reviewed IE Inspection Reports No. 050-346/75-09, No. 050-346/75-10, No. 050-346/75-13, No. 050-346/75-15, and No. 050-346/75-16.
3. Areas of interest, as expressed by Mr. Dircks during the inspection, were as follows:
 - a. Freedom of IE inspectors to inspect without licensee/contractor personnel present, and freedom to talk with employees.
 - b. Procedures and methods used by the inspectors in obtaining information from the licensee, and time and problems involved in obtaining this information.
