Mr. William Lindsay, Director
Office of Electric Power Regulation
Federal Energy Regulatory Commission
825 N. Capitol Street
Washington, DC 20426

Dear Mr. Lindsay:

DAVIS-BESSE AND PERRY LICENSE CONDITIONS

Enclosed are copies of a request by the Counsel for the City of Cleveland for NRC to begin compliance proceedings against the Cleveland Electric Illuminating Company (CEI), CEI's response, and the particular license condition in contention.

Since CEI has indicated that it plans to file a transmission service schedule with FERC in connection with this, we thought the material would be of interest to you. In the future, we may want to discuss with you and/or some of your staff the relative roles of NRC and FERC in this matter. If you would like to select someone on your staff for us to contact, we will keep that person informed as to our progress with this complaint.

Sincerely,

JSL JEROME SALTZMAN

Jerome Saltzman, Chief
Antitrust & Indemnity Group
Nuclear Reactor Regulation
