

guards on August 25, 1977, from 9 a.m. to 3 p.m. This meeting will also be held at the facilities of the Defense Industrial Security Institute near Chester, Virginia.

Although the primary purpose of the meetings is to give additional information to affected licensees and transportation agents as to implementation of the proposed rules, attendance is open to the interested public but limited to the space available. Persons desiring to attend either of the meetings should inform T. F. Carter, Jr., Chief, Contingency Planning Branch, Division of Safeguards, phone: 301-427-4191, before August 15, 1977, so that appropriate arrangements can be made for their attendance. Members of the public may be permitted to make oral statements in connection with the subject of either meeting, time and circumstances permitting. Statements would be limited to one per public attendee at either meeting, not to exceed 15 minutes in delivery. No participation by a member of the public need be permitted other than the making of a statement by that person. NRC staff need not respond at the meetings to any statement made by a member of the public other than to acknowledge the statement.

**TOLEDO EDISON CO., AND CLEVELAND
ELECTRIC ILLUMINATING CO.**

Davis-Besse Nuclear Power Station, Unit No. 1; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 5 to Facility Operating License No. NPP-3, issued to the Toledo Edison Company and the Cleveland Electric Illuminating Company, for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

The amendment removes a condition which stipulated the amount of time allowed from date of issuance of the operating license for completing the installation of the gaseous radwaste treatment system oxygen monitors.

The amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which

are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) Amendment No. 5 to License No. NPP-3, and (2) the Commission's related Safety Evaluation supporting Amendment No. 5 to License No. NPP-3. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Ida Rupp Public Library, 310 Madison Street, Port Clinton, Ohio 43452. A copy of items 1 and 2 may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Project Management.

VIRGINIA ELECTRIC AND POWER CO.
**Issuance of Amendments to Facility
Operating Licenses**

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 32 and 31 to Facility Operating Licenses Nos. DPR-32 and DPR-37, issued to Virginia Electric & Power Company (the licensee), which revised Technical Specifications for operation of the Surry Power Stations, Units Nos. 1 and 2 (the facilities) located in Surry County, Virginia. The amendments are effective as of the date of issuance.

These amendments permit a brief outage period for the Boron Injection Tank recirculation flow path, while the reactors are operating, during which time the flow path may be serviced or repaired.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated March 23, 1977, (2) Amendments Nos. 32 and 31 to Licenses Nos. DPR-32 and DPR-37, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Swem Library, College of William and Mary, Williamsburg, Virginia. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 26th day of July 1977.
