COUPON No. 1

Dr. Glenn T. Seaborg, Chairman,
U. S. Atomic Energy Commission,
1717 H St., N. W., Washington, D. C. 20545.

Dear Dr. Seaborg:

In the matter of the license hearings for the Consumers Power nuclear plant at Palisades, Michigan, I strongly support the position that the AEC has the authority to control thermal as well as radioactive pollution. After all, if you don't, then who does? We do not oppose new power sources. But we do want safety and a healthy environment.

I hope and trust that the license will not be granted until Consumers Power takes necessary steps to prevent what would be the worst thermal pollution anyone has ever proposed in the United States.

Sincerely yours,
