Cleveland, Ohio 44114

In the Matter of Toledo Edison Company and
The Cleveland Electric Illuminating Company
Davis-Besse Nuclear Power Station
Docket No. 50-346

Dear Mr. Kalur:

This is in response to your letter of October 27, 1971, in which you advised that you wished to present opposing comments on the statement submitted to the Commission by the applicants in the captioned matter as to why construction should not be halted during our NEPA review. You also advised that your comments would be submitted within 30 days from the date of your letter and requested that the Commission make no decision on the matter until your comments were received and evaluated.

Your comments will receive careful consideration if you can submit them promptly so that we have them prior to our determination as to suspension vel non. In any event, you will have an opportunity, in accordance with paragraphs 4(a) and (b) of Section E, 10 CFR 50, Appendix D, to submit your client's contentions and demand a hearing on the suspension question.

Sincerely,

(signed) L. Manning Muntzing
