

OCT 15 1974

V. A. Moore, Assistant Director for Light Water Reactors, Group 2, L

DAVIS-BESSE Q-2

PLANT NAME: Davis-Besse Unit 1
LICENSING STAGE: OL
DOCKET NUMBER: 50-346
RESPONSIBLE BRANCH: LWR 1-4
PROJECT MANAGER: I. Peltier
REQUESTED COMPLETION DATE: October 31, 1974
REVIEW STATUS: Accident Analysis Branch Review Continuing

Enclosed is our Q-2 list and positions for Davis-Besse, Unit 1 based on their present application. Since one of our staff members is currently working on higher priority items and has not yet reviewed Amendment No. 23, revision No. 9, docketed September 30, 1974, there may be a delay of several weeks in our analysis of the LOCA doses. Supplemental questions will be sent at that time, if required.
