CRYSTAL RIVER ADMINISTRATIVE PROCEDURES

Enclosed is correspondence between Mr. Garrett P. Hebb and this office regarding interpretation of 10 CFR Part 55. We are developing an answer to his letter, dated May 24, 1976 with OELD.

However, I believe it would be appropriate for Region II, IE to review the administrative procedures in use at Crystal River to determine if an adequate chain of command exists for the proper operation of the facility. I would appreciate receiving information regarding the adequacy of the procedures prior to developing a final answer to Mr. Hebb.

You will note from our reply, dated May 7, 1976 that we and OELD are reluctant to provide an interpretation based on a hypothetical case.

A handwritten signature in cursive script, appearing to read "Paul F. Collins".

Paul F. Collins, Chief
Operator Licensing Branch
Division of Project Management
