of Operating Reactors, NRR

RESOLUTION OF COMMENTS ON TECHNICAL SPECIFICATIONS FOR FLORIDA  
POWER CORPORATION - CRYSTAL RIVER UNIT NO. 3

With the exception of the following, all IE comments on the subject  
TS have been resolved.

It is noted that the definition of "daily" is different between  
Appendix A and Appendix B. We are of the view that terms like  
"daily," "monthly," etc., should be consistent throughout NRC. We  
request that NRR take steps to resolve this inconsistency.

If you have any questions on this matter, please call G. L. Constable  
on 492-7451.
