Docket Nos. 50-302 ~~144~~
and 50-303

Mr. Donald E. Pack, Acting Director
Air Resources Laboratory
Environmental Science Services
Administration
8060 13th Street
Silver Spring, Maryland 20910

Dear Mr. Pack:

A copy of Volumes 1, 2, 3, and 4 of the Preliminary Safety Analysis Report filed by Florida Power Corporation for the proposed construction and operation of two pressurized water nuclear reactors at its site on the Gulf of Mexico, 70 miles north of Tampa and about 7-1/2 miles northwest of Crystal River, Citrus County, Florida. The proposed reactors are each designed for operation at 2544 megawatts thermal with a net electrical output of approximately 879 megawatts.

We would appreciate receiving a report from the Air Resources Laboratory, ESSA, on the meteorological aspects of the proposed reactor location which might have a bearing upon our safety review.

On the basis of our tentative schedule for this project, it would be desirable to have your report available for our use by November 1, 1967.

Sincerely yours,

Original Signed by
Roger S. Boyd

Roger S. Boyd, Assistant Director
for Reactor Projects
Division of Reactor Licensing
