Confirming our discussions with you on March 24, 1976, the NRC staff will host a 1-day meeting at our Region II Office at the Federal Building, 275 Peachtree Street, Room 556, Atlanta, Georgia, April 6, 1976 beginning at 9:00 a.m., to provide additional guidance and to discuss the submittal of data and methods of evaluation. To assure that the discussions are productive, we are requesting that you send technical representatives to this meeting who will be directly involved in furnishing the required information and data, with respect to the radwaste treatment and effluent control systems, site meteorology and hydrology and radiological dose assessment.
