Dear Sir,

Returning matter enclosed because it is of no consequence to me.

My concern deals with the bias and discrimination shown me at S.M.U.D. in regards to employment.

Personally I feel that such a project should not be entrusted to men such as Royal Miller, Mr. Warner, who feel that S.M.U.D. is their own domain to run as they see fit, ignoring a persons right to employment, social justice and civil rights.

If your office cannot act in this matter, request that the matter be forwarded to the appropriate agency for examination and action in the nations capital.

Sincerely,

James J. Steg
