Gentlemen:

RE: Midland Plant Units 1 and 2

In our letter to you dated February 23, 1976, the NRC staff provided guidance with respect to information that must be filed with the Commission under the provisions of Section V.B of Appendix I to 10 CFR Part 50, issued May 5, 1975.

Confirming our telephone conversation of March 23, 1976, the NRC staff will host a 1-day meeting at our Region III Office, 799 Roosevelt Road, Glen Ellyn, Illinois, March 30, 1976 beginning at 9:00 a.m., to provide additional guidance and to discuss the submittal of data and methods of evaluation. To assure that the discussions are productive, we are requesting that you send technical representatives to this meeting who will be directly involved in furnishing the required information and data, with respect to the radwaste treatment and effluent control systems, site meteorology and hydrology and radiological dose assessment.

If we can assist you in making arrangements for your participation in this meeting or if you have problems or questions concerning your travel arrangements, please contact William Fisher, Region III at Area Code 312/858-2660 or FTS 387-9252.

Sincerely,

Original Signed by
