MIDLAND PLANT  
IE BULLETIN No 75-06  
DOCKET Nos 50-329 & 50-330  
FILE: 0505.2 SERIAL: 1673

Your letter of May 30, 1975, requested that a determination be made on whether Westinghouse Type OT-2 control switches were installed or scheduled to be installed in safety related systems of the Midland Plant. We wish to advise that no Westinghouse Type OT-2 control switches have been installed or purchased for safety related systems of the Midland Plant and therefore no corrective action is necessary.

If future purchase orders include Westinghouse Type OT-2 control switches, we will determine if Westinghouse has corrected the design prior to use in any safety related service.

*Steve D. Howell*
